

Game Play Procedures
Internal Controls

RED BLACK *jack*

The game will be played with a minimum of two decks dealt from a standard Blackjack shoe. Players may place wagers in the red betting spot, the black betting spot, or both betting spots, in addition to the mandatory Blackjack wager. The wager limits for each of the side-bets will be a minimum of \$1 and a maximum to correspond with the posted Blackjack maximum. The wager limits for the Blackjack bet will be as posted on a table-by-table basis.

Game play begins after wagers are placed with each player receiving the first two cards dealt face up. Dealer then collects all losing RED BLACK *jack* wagers starting from the right and ending with the left. The dealer will then play all winning RED BLACK *jack* wagers from right to left according to the following pay schedules:

<u>Schedule 1</u>		<u>Schedule 2</u>	
Color Match	2 to 1	Color Match	2 to 1
Suited Match	3 to 1	Exact Match	10 to 1
Exact Match	5 to 1	Suited ACES	100 to 1
Suited ACES	50 to 1		

“Color Match” is defined as two cards of the same color as the wagered side-bet.
“Suited” defined as two cards of the same suit and of the same color as the wagered side-bet. “Exact” defined as two cards of the same rank, the same suit, and the same color as the wagered side-bet. “Suited ACES” is defined as two cards of the rank “ACE” of the same suit, and the same color as the wagered side-bet. ONLY THE HIGHEST LEVEL OF SCHEDULE ODDS WILL APPLY.

After the paying of the winning RED BLACK *jack* wagers, play resumes in accordance with the rules of standard Blackjack.
